WELCOME

Hello and welcome to Securi-Tay 2018.

Securi-Tay is organised each year by the Ethical Hacking Society and this is our 7th event. Each year builds on the previous work done by the society. All of our members and the committee work throughout the year to host the event. We'd like to take this time to thank all of our members for their support in organising the conference whilst also creating quality content for our weekly meetings.

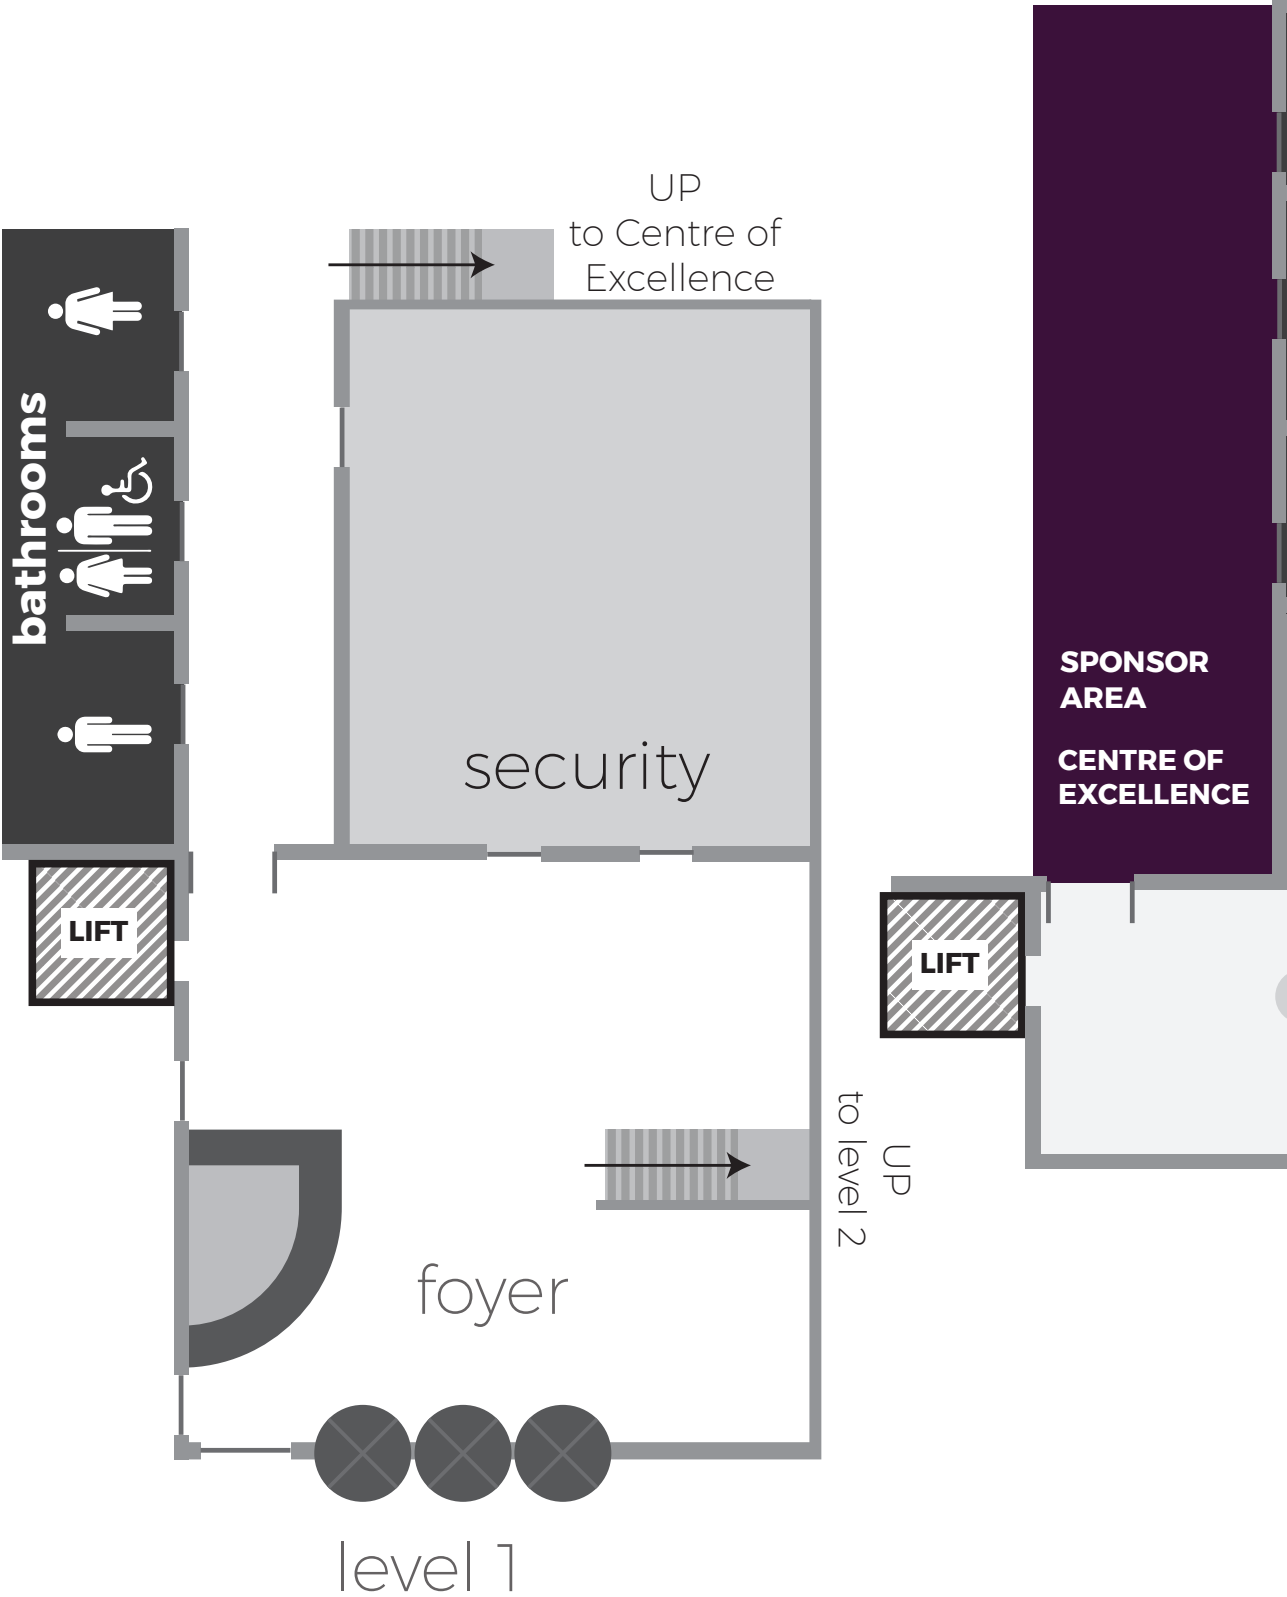

We are excited to have you all here over the weekend for our two day event. Everything you need to know about the conference is located within as well as a map to help you find your way around. If you need any help grab one of our volunteers, in purple t-shirts, or a committee member, in bright pink t-shirts.

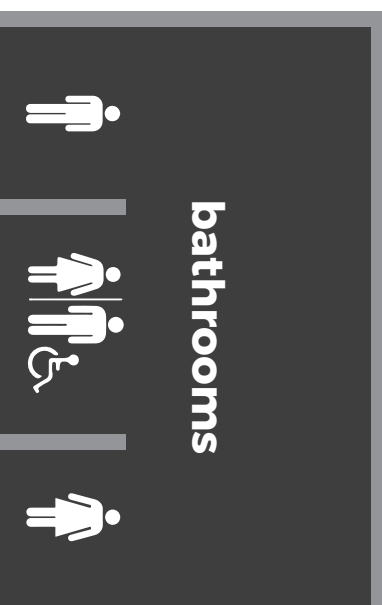

We would like to extend special thanks to our speakers, without them there would be no conference. Similarly we couldn't do this each year without our sponsors, please go pay them a visit in the Centre of Excellence on Level 2.

Have a brilliant conference,
The Committee

MAP

DISABLED & NON-GENDERED BATHROOMS

Disabled and non-gendered bathrooms can be found on both Level 1 past the foyer and Level 2 in the Centre of Excellence.

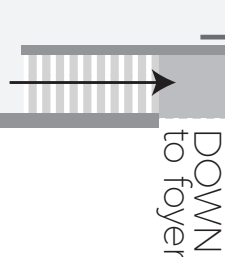

DISABLED ACCESS TO TRACKS

Disabled access to the tracks can either be via the lift in the foyer, or the Level 1 entrances to the tracks. Ask a crew member for directions to these.

TRACK TWO

TRACK ONE

level 2

LizardHQ is a community of security researchers and activists, and information security think tank founded in September 2013 by some ex-LulzSec hackers.

We release security advisories and research, and we particularly enjoy studying, exploiting and repurposing corporate and state surveillance technology.

Interested in our internship program?

Come and meet us at our stand.

BSI Cybersecurity and Information Resilience

Looking for the next step in your career?

Our professional team is looking to expand across the areas of:

Cybersecurity

Security
awareness

Data management
and privacy

Compliance
and testing

"BSI provides a great platform for graduates to enter and develop their career in cybersecurity. They provide real world training, aligned with industry standards, allowing fast development of new skills. I passed my Check Team Member exam a month after joining and I'm now training for Cisco CCNA."

John Jackson, Security Consultant, BSI Cybersecurity and Information Resilience
Abertay 2017 BSc Ethical Hacking Graduate
